**SPECIFICATIONS:**

Item #1: Pre-cast Concrete Pavers: It has been brought to our attention that the existing pavers at the corner of Main and Jeffords Street are brick and not pre-cast concrete pavers. As such, the Village is allowing bidders to include brick pavers in their Base Bid price. The village will also allow the Bidders to use pre-cast concrete pavers as long as they match the existing "Bricks" at the corner of Main and Jeffords Streets.

When bidding brick materials the following shall apply: All requirements specified under 32 14 13, PRECAST CONCRETE UNIT PAVING (AGGREGATE BASE) shall apply except as noted below. Replace 2.1.C with the following:

**2.1.C: BRICK PAVERS**

1. Pavers shall be solid, wire cut or non-slip surface, extended from fine clay or shale specifically for exterior application.
2. Pavers shall conform to and pass all test requirements of ASM C 902 Class SX Type 1 application PX.
3. The manufacturer shall furnish independent laboratory test reports and certify that his material meets the above specifications. Comply with ASTM C 67.
